

## COLLEGE HOUSING DOCUMENTATION GUIDELINES DISABILITY PROVIDER FORM

Presbyterian College is committed to the full participation of students with disabilities in all aspects of college life. As a four-year residential college, learning to live in a community and share space with others is an integral part of our students' educational experience.

A <u>standard housing assignment</u> is a two-person sleeping room where bathroom facilities are located in either suite style adjacent to the room or located on the same floor. <u>There are numerous campus locations that provide quiet spaces for studying</u> including the library, which also provides a 24/7 access room to students. Accommodations in the residential buildings are *not* granted based on a desire for a quiet, undisturbed place to study, but rather when determined that a standard residential assignment is not a viable option for this student.

Your patient/client has requested accommodations through the Academic Success Office at Presbyterian College. The Academic Success Office coordinates the collection and review of documentation in conjunction with the Coordinator, Disability Support Services to provide reasonable accommodations for students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973, and with the Americans with Disabilities Act (ADA) of 1990 as amended in 2008, as well as other applicable state and federal laws.

Student's Name			
Student's Date of Birth			
In order to be considered eligible for reason current medical documentation provided by licensed psychologist, clinical social worker within three calendar years of the stude	a qualified profession r, or other mental healt	al such as a licer th professional wh	nsed physician, psychiatrist, nich has been provided

including any impact produced by side effects.

15. Please describe in detail the symptoms currently experienced by the student.
16. Please describe in detail how the disability interferes with one or more major life activities as would be encountered in the residential living environment. ( <i>Attachments welcome if additional space is nee</i> ded.)
17. Given the standard housing assignment and study locations explained on pg. 1, <u>please describe and provide rationale for any modifications you are recommending</u> to accommodate the student's disability.
18. Please also explain how the modifications you recommend would alleviate the functional limitations of the student's underlying condition.
19. If your recommendation is for the college to provide a single room accommodation, is this accommodation a medical necessity <u>or</u> simply beneficial?  Medical necessity for student  Beneficial for student
20. Please indicate what you and the student have discussed regarding current coping strategies for college:
21. What are some possible alternatives if meeting your primary recommendation is not possible?
22. Accommodations for this student's disability are recommended
For several months How many? For the duration of the student's time in college
For the next year only Duration is unknown at this time
23. If you are recommending a single room, please indicate whether and how there are any risks associated
