

Residence Hall Guidelines:

- **NO OUTSIDE GUESTS** in residence halls. There should be no one in your residence hall that is not a faculty, staff, or student member of the PC community.
- No more than 1 PC guest per residence. You must escort the visitor from the building entry door to your room.
- Apartments, Townhouses, and MSU:
 - May have up to 4 people (total) in the common room
 - 6-person apartments may have all 6 residents in this same space (you are part of the same collective living unit)
 - 6-person apartments may not have additional guests when all residents are present
- Apartments with private exterior doorways:
 - May have up to 6 guests outside the back of their residence if they are appropriately distanced. (Townhouses cannot exceed 10 people per unit)
 - For example, a 4-person townhouse/apartment with a back door and outside area may have 4 total people inside the unit and 6 total people outside near the back of the unit (this includes residents). If 1 person goes inside, 1 person must come outside.
 - It should be visually clear who is a guest of each specific apartment or townhouse when you gather outdoors.
 - Any larger groups inside or outside a residential area will be considered an unregistered social event and may result in a conduct violation.

Wear your face covering:

- Inside any building (unless you are in your own residence with only your roommates)
- Outdoors if you will be less than 6 feet from others
- While waiting to get food/drink and until you begin eating (promptly replace mask after eating – sipping on a drink does not count as eating)
- Face coverings should be worn appropriately to cover your nose and mouth (No mask-beard or mask-mustache.) Wearing a mask incorrectly is just as detrimental as not wearing one at all.
