## Multicultural Mixer

We had a very successful Multicultural Mixer yesterday with representation from all across the globe! Many of our international students and even PC students participated, educating others on their various cultures. Each student set up a booth for their respective country, with activities, food, and information about their culture! We had 20 different countries represented! It was lots of fun, with around 200 people from campus and the community coming out to show their support!

## Spring Break

This month we had spring break, so many students used this opportunity to explore other parts of the U.S. One group of international students took a trip to Miami, Florida. There they were able to explore the beaches and check out many of the local art museums and other popular destinations.

Several other students decided to check out a destination only a few hours from campus: Atlanta, Georgia. They checked out the World of Coca-Cola and popular local eateries like The Varsity. Additionally, we had one student do some solo traveling in New York City. He was able to check out some of New York's most popular landmarks like the Metropolitan Museum of Art and the Empire State Building.

## **International Buddy Program**

With the beautiful spring weather in full swing on PC's campus, we decided to have a painting picnic for our March Buddy Event. We sprawled out on blankets on the front lawn of campus to take in the sunshine while we painted! Snacking on charcuterie boards and fruit while catching up after Easter Break!

Since the semester is coming to a close, we only have one buddy event left this year. It will be the biggest event of the semester, in which the students will each cook something from their home country. We will all come together and enjoy the food together for one final meal!

PC Women's Basketball Team

## **Other News on Campus**

Our women's basketball team did especially great this season. They made history, winning the program's first-ever NCAA tournament game!

**Don't forget to check out our socials to see what we are up to!**

We want **you** to come to PC!
