APPEs follow the calendar month, typically starting with the first business day and ending with the last business day. It is possible that some sites may require students to start or end on a weekend day, based on the preceptor's own schedule. The dates shown here are the all-inclusive dates and are based on the calendar day, not the first/last business days. The number of days & hours reported are based on business days only (Monday-Friday) and should, therefore, represent the minimum number of hours the student is expected to be on rotation.
